

Want to Check Out the “Darwin vs. ID” Controversy? Here’s a Quick Dive into Key Resources

Assembled by Dr. Tom Woodward, these are useful for anybody, teacher or learner.

I. WARM-UP: Feast on *Darwin's House of Cards* by Thomas Bethell and Doug Axe's *Undeniable*. Dig deeper with Stephen Meyer's trilogy, *Signature in the Cell*, *Darwin's Doubt*, and *The Return of the God Hypothesis*. I trace ID's history in *Doubts about Darwin* (CRI 2016), and *Darwin Strikes Back: Defending the Science of Intelligent Design*. Check out *Epigenetics and the Architect: Evidence of Design at the Frontier of Biology* (2026). See this DNA-dive: <https://vimeo.com/722224583>

Pastor Willy Rice spoke on science and faith: <https://vimeo.com/267520115/a74f6ab54d?fl=tl&fe=ec>. I share DNA info at 28:00-38:00. To see my origins-debate on CNBC, enjoy the fireworks in a clip with Professor Alters: <https://www.youtube.com/watch?v=LSQAPREqCVI>

NOW, the MAIN CONCERT: Top Video Resources on Darwin/Design Issues.

II. CLASSIC FIVE-STAR DOCUMENTARIES: Start with "Unlocking the Mystery of Life," then view "The Privileged Planet," and also "Darwin's Dilemma." These are a powerful trio. ("Unlocking" is in over 30 languages.) Illustra Media then released "The Case for a Creator" with Lee Strobel, and a superb new trilogy: "Flight: The Genius of Birds," "Metamorphosis: The Beauty and Design of Butterflies," and "Living Waters: Intelligent Design in the Oceans." All are top quality and findable on YouTube. Just put the title in the search bar!

III. NEWEST SPECTACULAR VIDEOS on YouTube...

(1) GENIUS OVERVIEWS: <https://www.discovery.org/v/evolution-bacteria-to-beethoven/> is a fantastic five minute overview by Steve Meyer of problems with Darwinism. View the “Secrets of the Cell”—beautifully narrated by Michael Behe: <https://www.youtube.com/watch?v=gw94qm4qdn8>. **It is mandatory watching, along with the documentary “Revolutionary,”** on the controversy that swirls around Behe’s discoveries and critiques. Click here: https://www.youtube.com/watch?v=kTi6J_A6Ujw

(2) "LONG-STORY-SHORT"—A major new series by Discovery Institute...

For the overview page, go here: <https://www.discovery.org/video-series/long-story-short/>

These short videos are animated in style, impishly brilliant, on-target, and entertaining. Many of them are focused **on facets of the origin of life**, but they’ve gone into other key topics as well, e.g. **homology, alleged evidence for whale evolution.** Our vote for top video: “Codes of Life.”

(3) SCIENCE UPRISING VIDEOS...on a scale of one star to five stars, these are seven star videos. Ideal for young adults, these short videos (8 min. typically) focus on different themes. The website is here: <https://scienceuprising.com/> See this brilliant example: <https://scienceuprising.com/fossils/>

Enjoy!
