

Leveraging Technology in Ministry – Rev. Brandon Bouldin

Technology is changing the way churches communicate, organize, and serve, and ministry leaders have an opportunity to use these tools wisely and effectively. This practical workshop will explore how technology can strengthen ministry operations, improve financial stewardship, streamline administration, enhance communication, and expand ministry impact. Whether you are a pastor, church leader, administrator, or volunteer, this session will help you leverage technology to save time, increase effectiveness, and focus more energy on people and ministry.
