Discussion Questions:

Here's some discussion questions from Pastor Cliff's sermon on parents and kids:

1. Proverbs 22:6 gives parents the responsibility to train children. How is training different from guiding / In what ways are you training / did you train your kids? Share effective methods you have found.
2. What role might grandparents have in training children?
3. Regarding the importance of taking our kids to church, Pastor Cliff mentioned two benefits promised by God - what were they? (Jesus promises to be present with His gathered people, so your kids can expect to have an encounter with Him at church. Jesus said the church is his bride, to whom He will remain married forever - make sure your kids are a part of that bride!)
4. Pastor Cliff spoke his opinion about the cultural importance of sports over church and its tendency to train our kids to think church attendance isn't as important as other things. What are your thoughts? How might your family's habits need to change?
