## Discussion Questions:

1. What are three basic components of a human? (Spirit, Soul, Body)
2. Why is sex to be protected by the bounds of covenant marriage? (Marriage and the act of whole-person sex within it are the most sacred and pure metaphor of the holy love that Christ has for His Church - He offers Himself completely, and expects to be our one and only.)
3. Why is the practice of homosexuality forbidden right alongside fornication and adultery? (Define the words, and the answer becomes self evident.)
